

MANAGING FOR CHANGE

LEAP FORWARD WITH A CAREER FRAMEWORK

A career framework is a platform on which organizations can pivot and dynamically respond to challenges in both local and global markets by linking vital HR processes, such as workforce analytics, selection and retention, performance management, succession management, rewards, and career management and development. The strategic purpose of a career framework is to define job architecture, build workforce capability, enable performance and optimize costs.

Careers, titles and rewards are deeply personal and influence how people define themselves. Many organizations grossly underestimate the human impact of a new career framework and fail to manage the transition. When change management isn't embedded in the planning and implementation, the new framework can be an instant engagement derailer.

Change also brings opportunity. Given the breadth and impact a career framework can have on both employers and employees, it can be a mechanism for driving organizational change. Effective change management involves all levels of employees and presents an opportunity to inspire and connect everyone to a shared vision, while informing them about career opportunities.

SUPPORTING SUCCESSFUL ADOPTION

Mercer recommends a project approach to change management to ensure all stakeholders are equipped for the change and to enable a successful adoption of the new or refreshed career framework.

OBJECTIVES

- Ensure change readiness
- Engage stakeholders and gain their support
- Articulate the mandate for change and the vision for the future
- Prepare leaders and managers to own the vision and coach their team members
- Prepare for consistent, organization-wide adoption and support for the new framework
- Create a compelling narrative that links to a broader employee value proposition

HIGH-LEVEL WORK STEPS

- Articulate mandate and vision for change
- Create high-level messages and talking points
- Identify and engage key stakeholders
- Establish strategic change management and engagement plan in collaboration with key stakeholders
- Prepare implementation plan, including phases, milestones, timing, accountability, key risks and mitigating actions
- Socialize with key stakeholders and ensure resources and feasibility of plan
- Train and prepare internal staff and people managers for ongoing administration and implementation success
- Monitor employee engagement with tools

TOOLS AND TECHNIQUES

- Leader and manager training
- Employee focus groups and test kitchens
- Communications plan and key message platform
- Communication tools: interactive tools, apps and Mercer Belong/web portal

KEY DELIVERABLES

- Creative strategy guide, including campaign visualization, communication tool and implementation plan
- Manager training

A successful approach to change management has the right mix of solutions and is consistent and scalable to meet each organization's unique environment and needs.

IDENTIFY

Organizational architecture

Articulate mandate and context for change, engage leaders and enable them to become co-creators and change champions. Provide the information, training and tools necessary for effective change leadership.

DEFINE

Building blocks

Gather stakeholder input and map their experience. Define how new framework will improve the business. Create dialogue. Establish goals and success metrics.

ALIGN

Talent process

Articulate career and learning paths. Analyze individual and group impacts. Maintain dialogue. Develop creative approach and rollout plan.

ROLLOUT

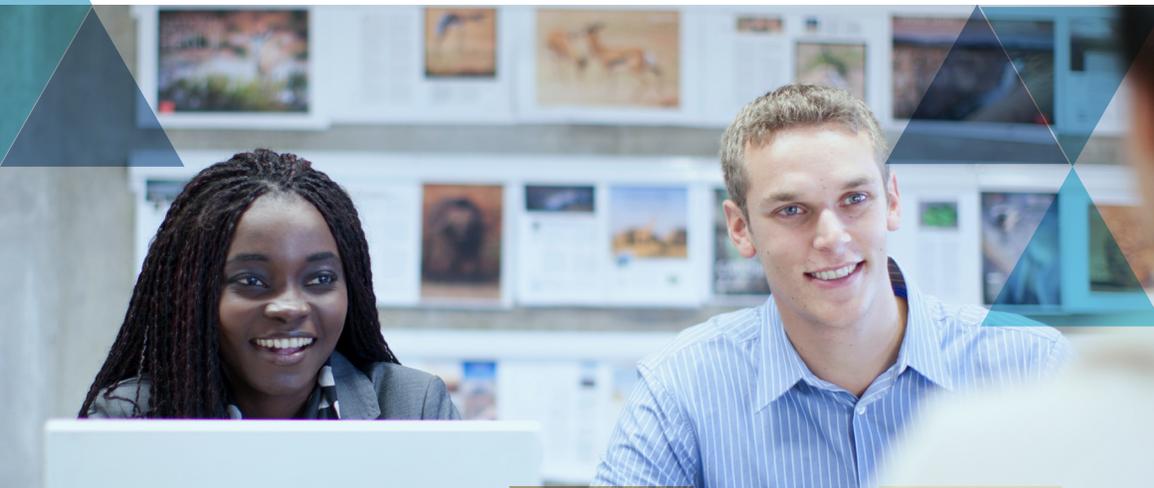

Change implementation

Define and deliver new practical knowledge that managers and employees need to transition to and use the new Career Framework using employees' own words and perspectives.

SUSTAIN

Nurture and maintain

Prepare the business for continual learning post-implementation. Align HR programs. Establish groundwork for new culture and linkage to Employment Value Proposition.

THRIVING IN AN ERA OF DISRUPTION

What distinguishes exceptional organizations? They have thought carefully about how to create work environments that meet the full range of their employees' needs to unlock the potential of their workforces – one employee at a time. Career frameworks can amplify the effects on employees' perceptions about how committed a company is to their growth and contribution. Although many organizations are still searching for ways to merely survive in today's complex world, these exceptional organizations have learned how to thrive.

Mercer's recent research solicited responses from more than 800 HR and business leaders across 57 countries to learn "what it takes to thrive" in their workplaces. This is what we learned:

THRIVING ORGANIZATION

Success redefined
Resilient and agile
Positive societal impact

THRIVING WORKFORCE

Diverse and adaptive
Inclusive and growth focused
Committed to well-being

THRIVING INDIVIDUAL

Growing and contributing
Empowered and connected
Healthy and energized
