

MERCER'S PORTFOLIO OF WORKDAY PRODUCTS

Exclusively created to dramatically enhance the Workday life cycle.

INDUSTRY-LEADING WORKDAY TOOLS

Mercer's portfolio of tools, accelerators, methodologies, services and intellectual property delivers unparalleled value during and after your Workday implementation.

SYNCHRONIZE

A cloud-based project management tool, providing progress reports at every step of your project, assuring that any potential issues are identified and proactively resolved.

DATA CONVERSION

The process will include data validation reports, customized conversion checklists to track progress, and validations performed before and after conversion to ensure the process was thorough.

INTEGRATIONS LIBRARY

A database of proprietary data gathered from more than 250 Workday implementations. We optimize our database to support highly complex data integrations in any industry.

AUTOMATED PAYROLL TESTING

With Mercer's Automated Payroll Testing we analyze, compare, and validate thousands of rows of data and then make changes to re-test and re-validate.

OPTIMIZATION SERVICES

Post-implementation services that continually improve and expand your Workday functionality. We focus on continuing to drive value from your Workday investment as innovations evolve.

TENANT MANAGEMENT SERVICES

Mercer provides ongoing assistance with new Workday innovations from configurations to updates.

CHANGE MANAGEMENT

Mercer leverages its global consulting expertise to build the infrastructure with your employees, managers, and HR Workday users in mind

TRANSFORMATION SERVICES

Mercer's HR and Finance transformation services are designed to scale and execute in parallel with your Workday deployment.
