Global Talent Trends | Consumer Goods | Most employees (49%) believe their organization does not effectively balance economics and empathy when making decisions. Leading companies listen intently to their people and show they care by nudging them towards brighter futures.

Focus on futures
Work together to ensure people thrive now and in the future

79% of executives agree that the purpose of an organization should extended beyond shareholder primacy
But only 48% of organizations are delivering on this today

72% of employees feel at risk of burn out this year

Race to reskill
Transform the workforce by reskilling for a new world economy

HR leaders’ #1 transformation challenge is change resistance
According to executives, only 40% of the workforce is able to adapt to the new world of work
But 79% of employees say they are ready to learn new skills

Sense with science
See ahead by augmenting AI with human intuition

Use of predictive analytics has increased (from 3% in 2018 to 32% today)
Just 11% of companies use metrics to make buy, build, borrow decisions
And only 38% use metrics to identify who is at risk of leaving

Energize the experience
Inspire and invigorate people by redesigning their work experience

Just 2% of HR Teams believe they deliver an exemplary employee experience today
But 59% of companies are redesigning the organization to become more people-centric
Energized employees are 4x more likely to report a flexible and inclusive workplace
